

BTC 857

3D Optical Notebook Mouse

Perhaps you have used many different mice without noticing the differences between them. With the M857C you will certainly experience the comfort of a well designed shape as well as the excellent performance due to its superior technology.

The M857C optical technology scans 1,500 times each second giving you responsive and accurate on-screen performance without the need for a mouse pad. At the same time, its outstanding industrial design gives it excellent visual appeal and will give you a comfortable shape that fits in either hand.

Features:

- Its compact size makes it easy to store in a briefcase yet it is as comfortable as your regular mouse.
- High performance sensor detects motion on most surfaces, including wood, plastic, cloth.....
- Symmetrical design makes it easy and comfortable to use in either the left or right hand.
- Compatible with Windows 95/98/2000/ME/NT/XP and no need and driver.
